LETZ RETAIL Learning Platform

Where the journey starts

The Letz Retail consortium is proud to present you our online learning platform! The platform comprises a set of 10 different learning units, with different topics highlighted which are relevant for you as an entrepreneur in the retail-, hospitality- or cultural- sector. Not only useful theory is available here, you can also find local best practices, videos and practical exercises, where you can put all theory into practice. We have elaborated important topics in different business operations, such as creativity, networking and negotiation and incorporated a returning trend, which is a sustainable and green economy. How can you adapt your business operations by using co-design, co-work and co-creation and respond to current trends related to these environmental changes and demands. Discover our platform and go to <https://learning.letzretail.eu/>.

The free online course is available in English, French, Dutch, Spanish, Bulgarian and Greek.

In the previous months we have organized 3 local workshops to see if the program is efficient and useful. We have collected feedback about the methodology, and will revise the agenda accordingly.

We need your help!

Currently, we need you to give your honest opinion on the above mentioned course, workshop and platform. At this moment, we have collected some useful and valuable feedback points, but we are always eager to improve the Letz Retail materials, so it will fit the latest trends and points out the real needs.
